

Layette Diaper Instructions

Please use **NEW** flannel fabric.

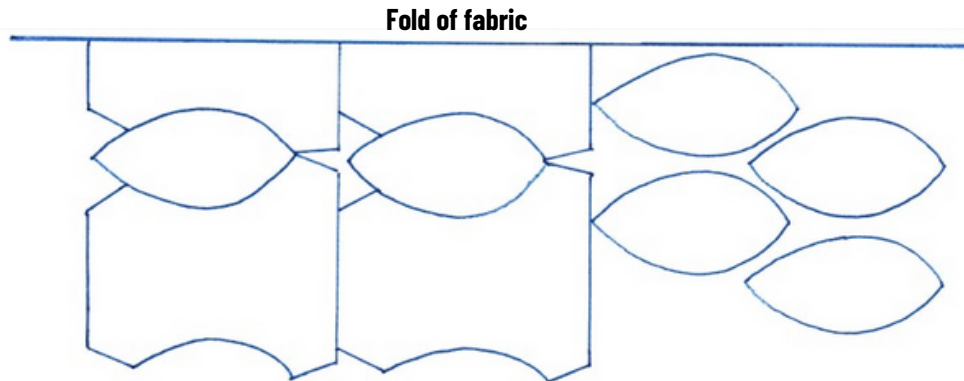

Please do **NOT** use fabric with the following designs:
Camouflage

Cutting:

Cut 2 of diaper and 4 of padding for each diaper

1 1/2 yards of 43/44" fabric will make 3 complete diapers

Layout suggestion:

Sewing:

1. Layer 4 layers of padding lengthwise centered on wrong side of one diaper layer.

2. Using zig zag stitch, sew 4 layers of padding to wrong side of one diaper layer.

3 step zig zag works well to catch all the edges of the padding.

3. Put right sides of diaper together and stitch all around leaving 4" opening for turning

4. Turn, with right sides out, top stitch 1/4" from the edge all around the edges

5. Sew large X inside the oval (to keep padding in place).
