MEDICAL SUPPLIES DONATIONS

WHEN SOMEONE'S HEALTH IS IN JEOPARDY, EVERYTHING ELSE IS.

We understand when there is a health need in someone's life, it effects so many different areas of their life. From a lack of mobility to being unable to work or attend school, their daily life, and potentially their family's life, is disrupted. We aim to provide the resources needed to meet these needs.

We accept donations of medical supplies and equipment from hospitals, nursing homes, and individuals. We also assemble health-related kits and handmade items.
