Sewing:

Start in the center and cut two strips 7" x 13". Put wrong sides together. The next piece (cut same size) goes on top and bottom of center piece with right sides together and makes a sandwich with the center in between. Open out the pieces just sewn on. Do the same to the other side of the center piece. Three pieces are now sewn together (front and back). Build on the sides of these three pieces using numbers 4 & 5. Continue sewing the same as previously using number 6 & 7. Continue according to the diagram.

Sewing suggestion - Serge or zigzag over seams as you go. When quilt size reaches about 42" x 60", bind off the edges.
